

30 April 2012

The fund aims to provide long term growth whilst investing in a diversified portfolio of assets (including equities, fixed interest and property) in order to reduce the risk associated with being solely invested in any one asset class. These assets can be from Ireland and overseas. It aims to be less volatile than the Standard Life Synergy Managed Fund, investing a higher proportion in assets that are traditionally less volatile (such as fixed interest assets).

The fund may use derivatives for the purpose of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate.
