

30 April 2012

The fund aims to provide long term growth whilst investing in a diversified portfolio of assets (including equities, fixed interest and property) in order to reduce the risk associated with being solely invested in any one asset class. These assets can be from Ireland and overseas. The fund is predominantly equity based and is actively managed by our investment team, who will vary the proportions held in each asset class to try to take advantage of opportunities they have identified.

The fund may use derivatives for the purpose of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate.
